- ERP and CRM systems development and maintenance.
- Deep understanding of REST and SOAP API's .
- Expirience with data structures and data manipulations such as XML and JSON .

EXPERIENCE

BACKEND DEVELOPER

Matrix

Freesbe - Carasso group 2022 - 2024

As a backend Developer, I have successfully led efforts to reduce bugs through a full-stack logs website developed with my team using Innovative web technologies.

I have also created advanced SOAP and REST APIs, significantly streamlining work processes and enhancing overall system efficiency.

I contributed to rebranding the company from Carasso to Freesbe by updating digital assets, ensuring seamless integration, and supporting the technical aspects of the transition.

FULL STACK DEVELOPER

Freelance 2021 - Present

Im providing innovative web solutions to private businesses, developing dynamic full-stack SPA websites that enhance user experience and drive engagement, my solutions improved performance, and delivered significant value to clients.
